

painting and drawing workshop

Lesvos / Polichnitos 06. - 13. 06.2012

Lesvos is a jewel for our Arts

Lesvos is a far less touched by the international tourist island. It impresses with its green variety, precious Rocks, hot springs, perfect for relaxing and constantly re-discovering picturesque spot.

Polichnitos Scala, a more genuine place with a small harbor on the southwestern coast of the island is home to us. A relaxed starting point for scenic excursions, painting activities or personal retreat.

The offer painting and drawing will be held on the beach in the shade of our beautiful accommodation.

Excursions will be organized by ourself with a rental car if we wish it .

At about 6 days every 3 to 5 hours, we deal with experimental mixed media, artistic rules in the visual design and color psychology. The possibility of an evening of culinary "trips" complete our painting.
